19 February 2024

Dear Mr Hyde

Thank you for your letter received on 06 February 2024

I would first like to apologise if you feel as though South West Water have fallen short in the treatment and operations of our Waste Water Services, we strive ourselves to consistently improve our network and reduce overall pollution risk.

You have mentioned Millendreath Beach and what work South West Water is conducting to reduce the impact to the environment in this region.

To help reduce the risk of environmental impact from our sewage network, and to contribute towards improving bathing water quality at Millendreath Beach, we have earmarked circa £100,000 of investment up to March 2025.

We have found that an area of road is draining into the sewage network upstream of Plaiddy Pumping Station. This increases volume through our sewage network in periods of rainfall and so we are evaluating how this can be removed to reduce storm overflows operating. We are aiming to complete this by 2025.

I trust my letter has addressed the concerns, however if you do have any further questions, please feel free to call me 01392 442734. I'm available Monday to Friday, between 9am and 5pm.

Yours sincerely

Chris Edwards
